

# Round 6 Release Tracking (For “Standard Users of MDIVE”)

Updates since: 6/24/2020

Hey Elaine and Lungi,

Attached in a PDF are the new M-DIVE features, soft release features, resolved issues, and information on support resources / feedback that have been updated since June 24th, 2020. Please review and add your feedback. Thanks!

## New M-DIVE Features

- **Data Updates**
  - **Quarterly Report Round 6 Data Updated (Q2 2020)**
    - Released: Cambodia, Cote d’Ivoire, DR Congo, Ethiopia, Ghana, Guinea, Kenya Liberia, Madagascar, Malawi, Mozambique, Myanmar, Nigeria, Tanzania (Mainland), Tanzania (Zanzibar), Thailand, Uganda, Zambia, Zimbabwe
    - To-be-processed: Angola, Cameroon, Mali
    - Did not yet submit data: Benin, Burkina Faso, Niger, Rwanda, Senegal, Sierra Leone
  - **DHIS2 connection:**
    - This round, 6 countries used a direct connection between M-DIVE and DHIS2 to submit their HMIS data. If you would like to submit HMIS and/or LMIS data through DHIS2, please reach out to the PMI Data Integration team.
- **Data Validation Report Update**
  - The Data Validation Report (available [here](#), and also linked on the front page of the Malaria Quarterly Report) has a new format. All charts can be downloaded as individual images, and the entire report can be downloaded as a PDF. If you have questions about the results in your data validation report, please reach out to the PMI Data Integration team.
  - This version of the report is also available in French and Portuguese.
  - The Data Validation Report includes new checks for malaria in pregnancy (MIP) and consumption of materials (e.g., ACT).
- **Malaria Quarterly Report Visualization Updates**
  - The Malaria Quarterly Report includes a new landing page that makes navigating between tabs easier, and makes it easier to find the information you are interested in.

## M-DIVE issues resolved

- **Data Issues**
  - **Malawi:** We resolved an issue in our data mapping that was displaying older submitted data for Malawi for Q4 2018 and Q1 2019. The correct data is now in M-DIVE. [\(requested by M-DIVE user\)](#)
  - **Tanzania (Zanzibar):** Updated data to only include one set of Admin 1 names in the canonical name list, in consultation with the Elimination data that was submitted by PMI.
- **Visualization Updates**
  - **HMIS Reporting Quality:** Updated the visualizations on this page to make the relationship between charts easier to understand.
  - **Data Availability:** Updated the data availability tab to show the existence of non-null data at all administrative levels. [\(requested by M-DIVE user\)](#)
  - **Stock-out rate:** Updated the legend on the stock-out visualizations to align with the heatmap, instead of the chloreopath map. [\(requested by M-DIVE user\)](#)
  -
